Filtering out problems before they happen

Filters really are your engine's first line of defence, protecting parts by keeping out unwanted debris. Any material not caught by a filter can potentially damage the engine and compromise its efficiency. High-quality filters therefore have a major impact on the efficiency of your engine.

Oil filter, fuel filter and air filter from Perkins

Thanks to many years of experience and development, Perkins offers filters that are specifically designed for your engine and provide the highest filtration performance. Using Perkins genuine filter you can be sure that your engine is protected as optimally as possible.

How to ensure that your engine is protected on the long run

Changing the filter is an important part of your maintenance programme. You want to be extra sure to have a worry-free engine ownership? Then think about Perkins® Hypercare and Perkins® Platinum Protection.

Perkins® Platinum Protection

The product support policy provides extended coverage when unexpected component failures occur during everyday use.

Perkins® Hypercare

Benefit from a proactive support agreement tailored to the service and maintenance needs of your engine.
